

REGISTRATION:

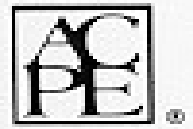

There is no fee for NJSHP members attending this program. NON-MEMBERS: Non-members wishing to attend will be charged a fee of \$100 (Pharmacist/Supporting), \$25 (Technician/Student), and \$50 (Resident/New Practitioner)
NO REFUNDS

All members are welcome to attend. If you reserve but cannot attend, please notify us at 609-936-2205.

RESERVATIONS ARE REQUIRED BY 3PM ON 11/11/22:

VIRTUAL LOGIN INFORMATION: Information for the virtual attendance will be sent to registrants via email on Friday, November 11, 2022, after 3PM.

TARGET AUDIENCE: The target audience for pharmacist programs are pharmacists practicing in a wide variety of healthcare systems. The target audience for technician programs are technicians practicing in a wide variety of healthcare systems.

CONTINUING EDUCATION CREDIT: The New Jersey Society of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing education. This program provides 6 contact hours of knowledge-based continuing education credits for pharmacists and technicians.

At the end of the program, attendees will receive a post-meeting assessment in their email. Completion of this will be required to record participation. CE certificates will be available only to those who complete the post-meeting assessment. *NJSHP is now using CPE Monitor to record attendance at all of our ACPE accredited programs.*

Thank you for your support!

The New Jersey Society of Health-System Pharmacists North Chapter

Presents

THE 12th ANNUAL MEDICATION SAFETY SYMPOSIUM

November 15th, 2022
9-4:30 pm

6 HOURS of LIVE
Knowledge-Based CEs
For Pharmacists &
Technicians

Virtual Platform

PROGRAM AGENDA

9:00 AM - 9:15 AM

Welcome/Opening Remarks

9:15 AM - 10:15 a.m

Breaking Down Stigmas: Alternatives to Opioids in Pain Management and Opioid Use Disorder

Nina Thoguluva, PharmD and Lynette Richards, PharmD, BCPS
One (1) contact hour (0.1 CEU)

10:30 AM - 11:30 AM

2022 Medication Safety Pearls

One (1) contact hour (0.1 CEU)

The Role of 340B Programs in Promoting Medication Access

Judith Lopez, CPhT

Pediatric Neuromuscular Blocker Management

Suzannah Kokotajlo, PharmD, BCPPS

Heparin Calculator Safety Project

William Herlihy, RPh, MBA

Electronic Health Record Allergy Documentation

Esther King, PharmD, BCIDP

Leveraging ISMP for EMR Quick Fixes

Sibyl Cherian, PharmD, BCPS, BCGP

11:30 AM - 12:30 AM

Medication Reconciliation to Improve Outpatient Safety

Frances Hughes, PharmD and Kayla Natali, PharmD, AAHIVP

One (1) contact hour (0.1 CEU)

12:30 AM - 1:30 PM

Lunch Break

1:30 PM - 2:30 PM

Suicidality in Adolescents: A Black Box Warning of Antidepressants

Ingrid Chou, PharmD and Daniel Greer, PharmD, BCPP

One (1) contact hour (0.1 CEU)

2:30 PM - 3:30 PM

Immunization Updates 2022: What is Monkeypox and What's New With COVID-19 Vaccinations?

Hannah Cho, PharmD and Brian Ubhaus, PharmD, BCPS

One (1) contact hour (0.1 CEU)

3:30 PM - 4:30 PM

Medication Errors in Hospitals in the Hospital Setting and Pharmacy Law Updates

Angelo Cifaldi, RPh, Esq and Satish Poondi, JD, PharmD

One (1) contact hour (0.1 CEU)

ACTIVITY OBJECTIVES

Breaking Down Stigmas: Alternatives to Opioid in Pain Management and Opioid Use Disorder

Nina Thoguluva, PharmD & Lynette Richards, PharmD, BCPS

St. Joseph's University Medical Center

ACPE #0152-0000-22-024-L08-P&T

Session Objectives for Pharmacists:

1. Identify risk factors for opioid misuse
2. Explain the role of medication history and medication reconciliation for regulatory compliance for opioid management
3. Describe pathways for implementing alternatives to opioid pain management

Session Objectives for Technicians:

1. Recognize medication events involving pain and opioid use disorder management
2. Identify risk factors for opioid misuse
3. Describe non-traditional pharmacy technician roles in opioid stewardship

2022 Medication Safety Pearls

ACPE #0152-0000-22-026-L05-P&T

Session Objectives for Pharmacists & Technicians:

1. Recognize how to identify the most appropriate team members for ensuring a successful, enduring patient safety project.
2. Discuss strategies to utilize ISMP resources to proactively create risk mitigation strategies for medication errors
3. Describe strategies that can be used to prevent medication errors involving neuromuscular blockers
4. Explain the role of the 340B programs in addressing healthcare disparities and for providing vulnerable patients access to medications
5. Identify the importance of complete allergy documentation for ensuring patient safety

The Role of 340B Programs in Promoting Medication Access

Judith Lopez, CPhT

St. Joseph's University Medical Center

Pediatric Neuromuscular Blocker Management

Suzannah Kokotajlo, PharmD, BCPPS

Morristown Medical Center

Heparin Calculator Safety Project

William Herlihy, RPh, MBA

Morristown Medical Center

Electronic Health Record Allergy Documentation

Esther King, PharmD, BCIDP

Overlook Medical Center

Leveraging ISMP for EMR Quick Fixes

Sibyl Cherian, PharmD, BCPS, BCGP

Overlook Medical Center

Medication Reconciliation to Improve Outpatient Safety

Frances Hughes, PharmD & Kayla Natali, PharmD, AAHIVP

St. Joseph's University Medical Center

ACPE #0152-0000-22-022-L05-P&T

Session Objectives for Pharmacists:

1. Review strategies for conducting an efficient medication reconciliation
2. Identify opportunity to integrate pharmacy technicians into the medication reconciliation process
3. Apply techniques for conducting a successful medication reconciliation interview

Session Objectives for Technicians:

1. Recognize the importance of medication reconciliation
2. Recognize sources of information needed for the medication reconciliation process
3. Apply techniques for conducting a successful medication reconciliation interview

Suicidality in Adolescents: A Black Box Warning of Antidepressants

Ingrid Chou, PharmD & Daniel Greer, PharmD, BCPP

St. Joseph's University Medical Center

Rutgers, Ernest Mario School of Pharmacy

ACPE #0152-0000-22-021-L05-P&T

Session Objectives for Pharmacists:

1. Explain the utility of Black Box warnings and Medication Guides for ensuring patient safety
2. Identify how suicidality may present in patients and what to do if a patient is suicidal
3. Recognize adverse effects and monitoring parameters when utilizing antidepressants in adolescents and others

Session Objectives for Technicians:

1. Explain how Black Box warnings and Medication Guides help promote safe medication use
2. Describe safe practices when handling and delivering antidepressants
3. Identify antidepressant medications by their generic names

Immunization Updates 2022: What is Monkeypox and What's New With COVID-19 Vaccinations?

Hannah Cho, PharmD & Brian Ubhaus, PharmD, BCPS

St. Joseph's University Medical Center

ACPE #0152-0000-22-020-L06-P&T

Session Objectives for Pharmacists:

1. Recognize groups at high risk for monkeypox or COVID-19 and who are candidates for vaccination
2. Identify the different vaccine schedules, contraindications, monitoring parameters, and adverse events associated with each vaccine
3. Explain the different administration techniques for the different vaccines for monkeypox and COVID-19 and how to administer them safely

Session Objectives for Technicians:

1. List available vaccines per patient population for each disease state
2. Recognize contraindications, adverse drug events, and monitoring parameters for each vaccine
3. Explain proper administration techniques and proper follow up for the different vaccines for monkeypox and COVID-19

Mediation Errors in the Hospital Setting and Pharmacy Law Updates

Angelo Cifaldi, RPh, Esq & Satish Poondi, JD, PharmD

Wilentz, Goldman and Spitzer, P.A.

Trenk Isabel Attorneys at Law

Rutgers, Ernest Mario School of Pharmacy

ACPE #0152-0000-22-025-L03-P&T

Session Objectives for Pharmacists & Technicians:

1. Describe best practices for handling medications to reduce errors
2. Discuss common medication errors which can occur in the ordering, dispensing, and preparing of medications
3. Identify the elements of a negligence case
4. Explain how pharmacy regulations and the standard of care are interrelated
